

## DECISÃO EM RECURSO ADMINISTRATIVO

**Processo: 54/2018**

**Pregão Eletrônico 14/2018:**

**Recorrente: LÍDER NOTEBOOKS COMÉRCIO E SERVIÇOS LTDA.**

**Recorrida: MICRO MASTER INFORMÁTICA E SERVIÇOS EIRELLI.**

### RELATÓRIO

A RECORRENTE, LÍDER NOTEBOOKS COMÉRCIO E SERVIÇOS LTDA, com sede na Avenida Dr. José Correia Machado, 1079 – Ibituruna, Montes Claros - MG, CNPJ 12.477.490/0001-09 apresentou, tempestivamente, o Recurso Administrativo contra ato do Pregoeiro que habilitou a empresa Recorrida no item 01 do Pregão nº 14/2018.

A Recorrente alegou, em síntese, que:

1 – *“O edital estabelece no ANEXO I – ITEM 05. DAS ESPECIFICAÇÕES DO OBJETO:*

*“5.1. Os materiais deverão ser novos e sem uso, os quais deverão ser entregues na caixa lacrada pelo fabricante que correspondam ao impresso especificado;”*

*Isto posto, o monitor ora ofertado pela recorrida, DELL P2016 teve sua fabricação descontinuada pela fabricante DELL, conforme diligências realizadas no próprio site da fabricante.”*

2 – *“O edital estabelece no ANEXO I – ITEM N° 01 – Subitem n. Monitor:*

*“2. O monitor deve acompanhar suporte para fixar o chassi do computador em sua parte traseira, sem que isso impacte os ajustes de altura, rotação e inclinação entregues pelo monitor. O suporte não pode tapar o número de série do equipamento, facilitando assim a identificação deste em momentos de necessidade.”*

*A recorrida não ofertou em sua proposta o acessório exigido no item n.2. Em consulta ao site da fabricante, consoante ao fato de que o monitor P2016 foi*

*descontinuado, o acessório para o referido monitor também está descontinuado. Sendo assim, mesmo que a recorrida tivesse ofertado o acessório exigido no edital, não seria possível a aquisição deste.”*

3 - *“O edital estabelece no ANEXO I – ITEM N° 01 – Subitem i. Fonte de Alimentação:*

*“1. Fonte de alimentação interna ou externa, com chaveamento automático, suportando as tensões de entrada de 110/220v; PFC ativo para fontes interna ao gabinete e eficiência mínima de 87%; para fontes externas a eficiência mínima de 87%. Os cabos elétricos, quando aplicáveis, devem seguir a norma NBR 14136;” (Grifos Nossos).*

*A RECORRIDA MICRO MASTER não apresentou comprovação de que o equipamento possui fonte de alimentação com eficiência mínima de 87% conforme exigido no edital. Conforme pode ser visto no do documento enviado pela recorrida: 1-Dell\_Optiplex 3060 Micro.pdf o equipamento possui fonte de 65w, mas não existe a informação da eficiência da fonte”*

Ao final requer a reconsideração da decisão e inabilitação da Recorrida.

A Recorrida, Micro Master e Serviços Ltda - Me, inscrita no CNPJ sob o nº.07.247.170/0001-14, com sede na Avenida Dezessete de Dezembro 444 – Centro – Candeias - MG apresentou, tempestivamente, suas Contrarrazões, argumentando que:

1 – *“Já a empresa Lider Notebooks alega em síntese que o monitor ofertado pela recorrida teve sua fabricação descontinuada. De modo que, ambas as alegações são completamente descaídas de forma que, não merece sequer apreciação por parte deste ilustre pregoeiro e sua equipe.”*

*“No que se refere ao monitor Dell P2016, que aparentemente está descontinuado, a empresa Micro Master informa que ofertamos este modelo, devido atender as exigências do técnicas do edital, e por conseguir estoque no distribuidor para aquisição dos mesmos.”*

2 – *“Referente ao monitor deve acompanhar suporte para fixar o chassi do computador em sua parte traseira, está bem claro esta solução no catalogo anexado na página onde discrimina: “Acessórios recomendados” A solução com montagem que ocupa pouco espaço se adapta a seu ambiente com gerenciamento de cabos e funções de ajuste da altura do monitor, além de inclinação e rotação.”*

3 – *“Quanto a fonte de alimentação, foi comprovado na documentação técnica enviada, também poderá ser comprovada no link do fabricante Dell “Optiplex 3060” todas as exigências técnicas, inclusive fonte:*

<https://www.dell.com/support/home/br/pt/brdhs1/product-support/product/optiplex-3060-desktop/manuals.>”

É o relatório.

## MÉRITO

### 1. DA DESCONTINUIDADE DO MONITOR P2016

O Edital em nada se refere quanto a itens descontinuados de tal maneira não se pode desclassificar a proposta por esse motivo.

Cabe a empresa entregar o equipamento dentro das definições descritas no instrumento convocatório.

Quanto ao equipamento ou partes dele estarem, como afirma a Recorrente, “descontinuada”, o item 5.4.1, q), 4, do Termo de Referência assim define:

*“Todos os equipamentos a serem entregues deverão ser idênticos, ou seja, todos os componentes externos e internos de mesmos modelos e marcas dos utilizados nos equipamentos enviados para avaliação e/ou homologação. Caso o componente não mais se encontre disponível no mercado, admitem-se substitutos com qualidade e características idênticas ou superiores, mediante nova homologação;*

### 2. DO SUPORTE PARA O MONITOR

Na proposta da licitante “Micro Master”, no tópico 2 “Especificações técnicas”, está exibido na descrição do item o “suporte” como parte integrante do item ofertado.

### 3. DA EFICIÊNCIA DA FONTE DE ALIMENTAÇÃO

Após análise das especificações técnicas no site da fabricante Dell, verificou-se que o equipamento ofertado, no que diz respeito a fonte de alimentação, atende ao requerido no instrumento convocatório.

## ENTENDIMENTO DO PREGOEIRO

Com base no exposto, conheço do Recurso, pela tempestividade de que se reveste para, no mérito, NEGAR-LHE provimento, considerando que os argumentos apresentados pela RECORRENTE, no entendimento deste Pregoeiro não são suficientes para desclassificação da RECORRIDA.

Rio de Janeiro, 28 de janeiro de 2019.

Daniel Melo Jacques  
Pregoeiro Oficial – CRF-RJ

# OPTANE™ MEMORY

Intel® Optane™ memory is a unique technology that bridges a gap between 'memory' and 'storage'.

Paired with an HDD (Spinning Hard Drive), Intel® Optane™ memory delivers increased responsiveness and boot up performance with the high capacity of HDD.

Intel® Optane™ memory cannot replace DRAM entirely. However, these two memory technologies complement each other within the system
